

## Metering Rod Installation Tool

PART NUMBER 026-06317-0001

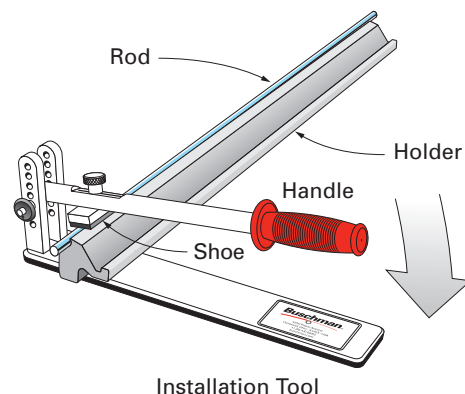

### Metering Rod Installation Tool

High-quality metering rods are precision instruments that must be properly installed in secure rod holders to deliver the quality users demand in the paper coating process.

Buschman's innovative Rod Installation Tool makes installing coating rods in holders extremely easy while preventing damage to the rod and holder.

Lightweight, sturdy, and easy to use, it can be quickly adjusted without tools to accommodate any rod holder and rod combination. The tool works equally well for installing shorter converting rods as well as long-length size press rods.

Press down on the handle until the rod seats in the holder's cradle.

#### Benefits

- **Reduced Costs** – Drastically reduces the chance of damage to the rod or holder during installation.
- **Faster Rod Changes** – Rods can be installed in the holder much faster.
- **Safer than Alternative Methods** – Some methods using improvised tools can cause operator injury.
- **Less Operator Frustration** – Machine operators are more efficient when they are using the highest quality tools and accessories.

#### Features

- Sturdy aluminum construction.
- Tool-free height and width adjustments to quickly accommodate any rod holder.
- Beveled edges make sliding the tool down the length of the holder easy.
- Long lever provides up to 10:1 mechanical advantage (10kg of force applied to handle applies 100kg of force to metering rod).

#### Specifications

- Material: 6061-T6 Aluminum
- Dimensions: 45cm (17.7in) x 8cm (3in) x 14cm (5.5in)
- Weight: 1.8kg (4lbs)
- Maximum Holder Height: 95mm
- Maximum Holder Width: 95mm
- Maximum Holder Length: Unlimited
